REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant has incorporated the allowable subject matter of previous dependent claims 3 and 21 into independent claims 1, 19, and 36 (see also Applicant's Remarks dated 10 July 2006).

As stated in the previous Office action with regards to claims 3 and 21, the combination of Girod and Applicant's Admitted Prior Art ("Admission") are silent to the second image characteristic amount being obtained by scaling the image and by effecting DCT processing and quantization processing on the scaled image and by extracting several coefficients among coefficients obtained by a processing result from a low frequency component side.

Girod discloses that the second image characteristic amount corresponds to an "input block" than has not been subjected to scaling, DCT processing, or quantization, and Admission does not cure the deficiencies of Girod.

For this reason, claims 1, 19, and 36 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
